Caratteristiche:

- FLEXconnect ready
- IP20
- Lampade non incluse nella confezione
- Interruttore
- Montaggio a parete

Compact, striking and modern – the JACK spotlight provides targeted light where you need it and adds an elegant touch to your room. The interplay of clear design and elegantly textured glass makes it more than just a light source: it becomes a design accent on the wall or ceiling. Whether as a permanently installed wall light or flexibly with a separate plug cable (not included): Thanks to Flexconnect ready, the light offers maximum freedom of connection. The practical switch ensures simple operation directly on the spotlight. Ideal for anyone who does not think of functionality and design separately. JACK impresses with a housing made of matt black metal, which has a modern, stylish look thanks to its calm surface. The textured glass in a smoky smoke colour lends the light a pleasant depth and creates a softly tinted, atmospheric glow. The materials complement each other perfectly – a cool, urban and high-quality look. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.
