

Temporizzatore elettronico luce scale

Electronic staircase timer

50-60 Hz - 230 Vac
Corrente nominale 16A
Contenitore modulare 1 DIN autoestinguente VO
Adatto per impianti a 3 o 4 fili, con riconoscimento automatico
Scala tempi da 0.5 a 20 minuti
Max 30 pulsanti luminosi da <1 mA collegabili
Max 10 pulsanti luminosi LED collegabili
Morsetti di collegamento a vite
Commutazione allo zero di corrente per ridurre l'usura dei contatti
Funzione Pulizia scale

50-60 Hz - 230 Vac
Rated current 16A
Self-extinguishing VO 1 DIN case
Suitable for 3 or 4 cable systems, with automatic identification
Time Regulation from 0,5 to 20 minutes
Max 30 illuminated push-buttons <1mA
Max 10 LED illuminated push-buttons
Screw connection terminals
Zero crossing switching to protect contacts from wear
Stairs cleanig function
