VERLYS

Technical properties

Minimalist elegance and cutting-edge technology

A modern, minimalist design that will add a touch of sophistication to any contemporary interior. Its unobtrusiveness means it blends harmoniously into any living space, while its unique look makes it a decorative element in its own right. A responsible radiator, designed to meet the energy challenges of today and tomorrow.

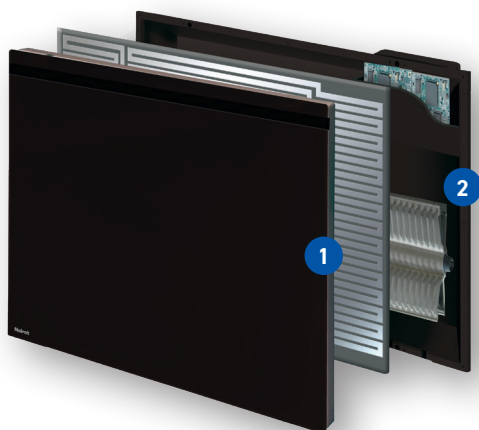

DUAL EMISSION HEATING : INSTANT SOFT HEAT

- 1 A 6 mm thick tempered glass decorative front panel with a screen-printed heating film that radiates 20% of its power from the front panel.
- 2 A single-unit aluminium reactive emitter provides the remaining 80% of the power for rapid temperature increases and to maintain utmost comfort in winter.

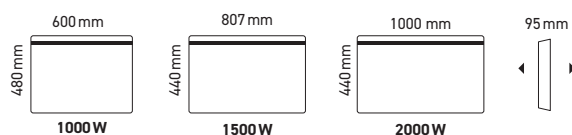

A HIGH-PERFORMANCE, PRACTICAL THERMOSTAT

Backlit LCD display
Accuracy to a 10th of a degree.
Behavioural indicator
Open window detection
• quick locking
• pin code locking
• range setting
• settings lock and range setting
